ADVISORY ACTION

Response to Amendment

The proposed amendments are not being entered for the following reasons:

a) Claims 1-2 contain previously unexamined limitations, including a single species from the Markush list of claim 6;

b) Claim 6 removes Mn from the Markush list; as the claims presently are amended, the presence of the other metal oxides *in addition* to Mn (Mn is now required in claims 1-2) has not been previously presented;

c) The dependency of claims 10-11 and 14 has changed in a manner in which the claims have not been previously examined.

In view of the above amendments, reconsideration of the presently amended claims will require further search and consideration.
